

## The Carbon Advocate.

H. V. MORTIMER, EDITOR.

LEHIGHTON, PA.  
SATURDAY MORNING JANUARY 21 1874.

The question of the right of the Secretary of the Treasury to draw on the \$44,000,000 reserve has been discussed by the Committee on Ways and Means who have agreed to present the subject to the House and have it settled there. They will present a resolution, however, fixing the limit of the national tender currency at \$400,000,000. This will prevent the covering into the Treasury of any of the \$44,000,000 that has been paid out.

A Washington dispatch of the 20th inst. says: In the Supreme Court today, in the case of Day agt. Micon et al., the Court held that in the proceedings in confiscating the property of John P. Benjamin, of Confederate notoriety, there was not sufficient notice to Mr. Benjamin's mortgagees, and therefore affirm the judgment below sustaining the title of the mortgagees as against Day, the purchaser, under the proceedings. In the case of Bongree agt. John Sidel, also known in Confederate history, and others, the decision affirmed the judgment below, holding that the confiscation of the property of Sidel passed only a life estate, and did not affect the title of his children as heirs.

### Chief Justice.

Mr. M. R. Waite, of Toledo, Ohio, was on Monday nominated to the Senate by President Grant for Chief Justice of the Supreme Court. "This gentleman," says the N. Y. Sun, "graduated at Yale College in 1837. He has been a lawyer in Toledo, and has been counsel for important railroad corporations. He is now President of the Constitutional Convention of Ohio. He has never been a Judge. We never heard of him until his appointment with Evans and Cushing as one of the counsel for the United States before the Geneva Arbitration Tribunal. He is well spoken of by those who are acquainted with him in Ohio; but the fact that he is not generally known to the country will render his nomination for Chief Justice less satisfactory than it might be otherwise."

The Senate were in executive session for an hour and a quarter Wednesday afternoon, engaged in the consideration of the nomination of Morrison R. Waite to be Chief Justice of the Supreme Court. Senator Edmunds and the two Ohio Senators, Sherman and Thurman, spoke in favor of the confirmation, showing a concurrence of views as to Mr. Waite's integrity, his good legal attainments, and his suitable temperament for a Judge. No remarks were made by any Senator in opposition to the nomination. On the question will the Senate advise and consent to the appointment, the vote was unanimous.

The death of the Siamese twins in Mount Abery, near Salisbury, N. C., on the 17th of this month, ended one of the most remarkable of Natural phenomena. They came to this country in 1829, when they were 18 years old, having previously been shown in Europe. They were born on the coast of Siam, and their parents lived by fishing. None of their fifteen brothers and sisters were deformed, although many of them were twins. They made the tour of the United States, and, excepting Tom Thumb, were the greatest objects of wonderment to the people. Nor was the curiosity concerning them confined to gaping ruralists. To many men of science they were the first specimens of joined and living human beings. The fleshy ligature which linked them was about a foot in length, two inches broad and four thick, and through it ran a large artery and many veins, making their circulation identical. Their breathing, too, was simultaneous when they were asleep. They were not so entirely one, however, but that each had an entirely separate existence. Their senses were totally disconnected. One could not feel a hurt inflicted on the other, the ligature being the only part in which they were sensitive in common. Much scientific discussion arose concerning them, mainly bearing upon the question of possible separation. The details of their death are meagre. Chang died first, and a few minutes afterward Eng, who had for a few days been well, became delirious, and raved wildly. This may have resulted from the mental shock and apprehension as to his own fate; but more likely it was the result of a cessation of blood circulation between him and his brother. A stupor followed, and he died two hours afterward.

By an accident on the St. Louis, Kansas City and Northern Railroad at Jarden Creek, on Saturday night, Isaac Catey, of Boston, President of the Iowa Central Railroad, was badly hurt about the abdomen, and suffered

internal injuries. D. H. Pickering, General Superintendent of the same road, was slightly hurt, and Hon. J. H. Rollins, of Missouri, was considerably injured.
